

# SG-TDC

MINIMUM SECURITY DIFFUSER, STEEL  
LOUVERED CORE WITH LATTICE FACE

The SG-TDC is typically used in areas of constant supervision or lobbies or entryways. It is made of the Titus TDC diffuser with a heavy gauge steel lattice grille which can be attached in the field. It is used where additional security is still necessary and maximum performance is required.

## FEATURES & BENEFITS

- Face Plate is 12 gauge steel with 13/16" square holes and 3/16" fret bars
- Louvered Diffuser contains Titus model TDC border 1 (surface mount) with 1, 2, 3 or 4 way blow pattern
- Screw holes provided in face plate
- Tamper proof screws provided by others
