

dv180

SEMI-CIRCULAR DISPLACEMENT DIFFUSER WITH A180 DEGREE AIR DISCHARGE PATTERN

The DV180 is a semi-circular displacement diffuser with a 180 degree air discharge pattern. It is great for wall or surface mount applications and can be easily integrated into semi-circular building columns. The DV180 can supply a large volume of air at low velocity into the occupied zone. This model can contribute toward achieving LEED EA Credit 1: Optimize Energy Performance; IEQc2: Increased Ventilation; and IEQc7.1: Thermal Comfort - Design.

FEATURES & BENEFITS

- Can contribute toward energy savings
- Easily adjustable air pattern controllers to change airflow spread pattern
- Standard finish is #26 white (powdercoat)
- Wood grain finish options available
- Mounting base and telescopic duct cover are available as accessories
