

# dvr3

## 3-WAY AIR DISCHARGE PATTERN DIFFUSER DESIGNED FOR WALL OR SURFACE MOUNT APPLICATIONS

The DVR3 is a rectangular displacement diffuser with a three-way discharge pattern designed for wall or surface mount applications. It supplies a large volume of air at low velocities into the occupied zone. This model can contribute toward achieving LEED EA Credit 1: Optimize Energy Performance; IEQc2: Increased Ventilation; and IEQc7.1: Thermal Comfort - Design.

### FEATURES & BENEFITS

- Can contribute toward energy savings
- Easily adjustable air pattern controllers to change airflow spread pattern
- Standard finish is #26 white (powdercoat)
- Wood grain finish options available
- Mounting base and telescopic duct cover are available as accessories
