

# LL

The Titus LL-1 and LL-2 linear louver diffusers are an excellent choice for variable air volume systems. These ceiling mounted diffusers maintain a uniform, horizontal discharge pattern over widely varying flow rates. Available in both one-way and two-way discharge patterns; and a choice of four different frame types, all with removable cores.

## FEATURES & BENEFITS

- Architectural linear louver designed for both supply and return applications
- Combines crisply sculptured styling, careful workmanship and effective air distribution
- Excellent performance in vav applications
- Standard lengths are 1, 2, 3, 4, 5, and 6 feet

## AVAILABLE MODELS

- LL-1 / 1-Way Pattern / Fixed Louvers
- LL-2 / 2-Way Pattern / Fixed Louvers
