

The Titus OMNI-AA is an all-aluminum plaque face diffuser that satisfies architectural and engineering criteria. Its strong, clean, unobtrusive lines harmonize with the ceiling system without sacrificing performance. The curvature of the OMNI-AA backpan works with the formed edges of the face panel to deliver a uniform 360 degree horizontal air pattern, without excessive noise or pressure drop. It is an excellent selection for variable air volume systems.

# OMNI-AA

ALUMINUM PLAQUE FACE DIFFUSER  
FOR USE IN ARCHITECTURAL CEILINGS

## FEATURES & BENEFITS

- MRI compatible
- Excellent choice for variable air volume systems
- Supply diffuser for architectural ceilings
- Available in wood grain finishes
- 360 degree air pattern
- Face panel is held in place by 4-hook brackets that positively engage into slots in the backpan
- Available in 5 border styles including the NT border for Narrow Tee applications
