

SG-BG-FM UNIT DIMENSIONS

SG-BG-FM

Dimensions Available	
Width:	6 to 30"
Height:	4 to 30"
Available in 1" increments	

Notes:

Titus SG-BG security bars are constructed from hot-rolled carbon steel (SAE 1008, 1010 or 1015). The standard steel hardness can range from 100-126 Brinell depending on composition and heat treatment. This material does not comply with ASTM Standards A628, A629 or A750.

For standard product, width and height dimensions should be specified in even, 1" increments.
