

45F

Sight Proof Eggcrate Design

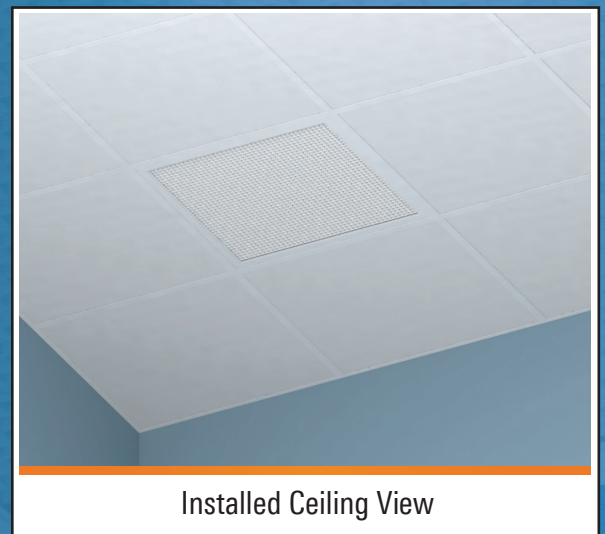

Hides Unsightly Objects in
Walls and Ceilings from View

The 45F is an all aluminum return grille with a eggcrate core at a 45° deflection angle that prevents line of sight through the grille. Get the benefit of an attractive look which hides the plenum or the duct behind it without the use of a light shield or plenum.

- Blocks view of objects in walls and ceilings
 - No secondary accessories needed, saving you money and time
- 92% free area - same as traditional eggcrate grilles
- All aluminum construction, strong frame and core
- For use in walls, drop ceilings and other special applications
- Available in 304 or optional 316 Stainless Steel

Installed Ceiling View
