

T₃SQ-0

- The T₃SQ-0 is a non-VAV supply or return diffuser with a center induction cap designed to match the T₃SQ-4 thermal VAV diffusers
- The curvature of the backpan works with the formed edges of the face panel to deliver a tight horizontal air pattern, without excessive noise or pressure drop over the full range of operation
- The T₃SQ diffuser is designed to satisfy architectural, as well as engineering criteria. The strong, clean, unobtrusive lines harmonize with the ceiling, without sacrificing performance.
- The face panel and backpan are constructed from 18-gauge steel. The formed outer edge also assures a straight and level surface.

T3SQ-0

MODEL:

T₃SQ-0 / Heating & Cooling

FINISH:

Standard Finish - #26 White

OVERVIEW

The T3SQ-0 is a non-VAV supply or return diffuser with a center induction cap designed to match the T3SQ-4 thermal VAV diffusers.
