AIR HANDLERS

ADVANCING THE SCIENCE OF AIR DISTRIBUTION

Redefine your comfort zone.™ | [www.titus-hvac.com](http://www.titus-hvac.com)

Rethink what air management systems can be.  
Revise your notion of functionality.  
Redefine your comfort zone.™

## Our Legacy

---

Since 1946, Titus has focused on technologically advanced products that create the highest degree of comfort.

We've consistently led the industry by breaking the barriers of expectation and convention when it comes to technology. We've redefined how technology drives, influences and supports air management. And by being first to market with the most innovative approaches to air distribution, we're proud to say that the marketplace has taken notice, and is counting on us to lead the way into the next decade. A challenge we're more than happy to accommodate.

Titus has raised the bar on design, proving that functional can also be beautiful. And we've redefined what it means to be energy efficient, with a collection of smart technology products that optimize the use of natural resources.

Titus has also redefined what it means to work with an air management products partner. We pride ourselves on listening and responding so that we can not only meet expectations, but also exceed them. Service has been, and will always be, our main focus at Titus. And, it's why so many of our customers keep coming back.

Welcome to your new comfort zone. It starts here.

## Modular Air Handlers / TBM & Revolution TFX

TBM

Revolution TFX

Small air handlers, sometimes referred to as blower coils, are intended for common areas and large meeting rooms in hotels, condominiums, universities and hospitals. These products are natural companions to Titus fan coils, yet air handlers supply greater airflow and coil capacity with a wide variety of options and standard features. Titus air handlers provide design flexibility with belt-driven fans, multi-row coil capability and various factory options.

## Commercial Indoor Modular Air Handler / TBM

TBM design allows you to configure draw-thru applications in horizontal, vertical and footprint saving arrangements. The TBM sets the new standard for quality, flexibility and competitive pricing. This product is engineered to satisfy the most basic air-handling requirements.

### Features and Benefits

- › Modular construction allows footprint savings by stacking modules in two-high configuration
- › Single wall and double wall-galvanized construction equipped with removable access panels/hinged doors for improved accessibility and serviceability
- › Hot water, chilled water, steam, and direct expansion (DX) coils available
- › Blow-thru electric heat with single point power connection
- › Customized options including double-sloped IAQ galvanized drain pan, direct drive plenum fans, high-efficiency filters, double wall perforated lining, external face and bypass dampers, and inspection windows
- › 600 - 10,000 CFM nominal airflows

## Highly Configurable Modular Air Handler / RevolutionTFX

The new Revolution TFX is exactly what you need for your next office, government or educational project. With an airflow range up to 30,000 CFM and a highly configurable cabinet, the Revolution allows you to customize the unit to suit your needs.

### Features and Benefits

- » Up to 30,000 CFM
- » 36 cabinet sizes
- » 34 segment options
- » Component flexibility to meet any AHU requirement
- » Design flexibility includes galvanized steel, painted steel and stainless steel
- » Perfect for retrofit applications

retrofit

universities

hospitals

k-12 education
