 Note: End caps are not insulated.

## General Description

Standard Finish: #02 Black pattern controllers and exposed surfaces.

---

- High capacity. Handles a large volume of air for a given pressure drop and sound level.
- For use with 9/16 bolt-slot narrow tee ceiling grids.
- Model TBD-30-NT has side mounting clips that secure the diffuser to narrow T-bars furnished by others.
- Center channel provided in 2-slot models for clearance of a bolt-slot narrow tee by others.
- The air pattern can be adjusted from full horizontal to full vertical
- The TBD-30-NT is an excellent choice for variable volume systems. When set for a horizontal throw, the TBD-30-NT will horizontal pattern from minimum to maximum throw.
- Outside edge of the face has a double metal thickness to ensure rigidity and straightness.
- Slot widths available: 1" or 1½".
- Number of slots available: 1 or 2.
- Lengths available: 24" and 48".
- 24" length has 1 set of blades per slot. 48" length has 2 sets of blades per slot.
- Material is steel.
