

Commercial/Industrial Louvered Supply Grilles and Registers Front Blades Individually Adjustable • Rear Blades Ganged Steel

Models: ☐ JFA-L • Long Front Blades

☐ JFA-S • Short Front Blades

Additional Border Type

Standard Finish: #26 White

General Description

 Model JFA has individually adjustable front louvered and gang operated rear louvers. Rear louvers are adjustable using a lever. The lever can also be used for pole operated making this an excellent choice for quickly adjusting airflow direction. JFA is an

excellent choice for spot cooling or spot heating such as in a factory.
