Standard Finish: #31 Armstrong Global White

General Description

- Models ML-TZ, MLR-TZ are designed to fit into Armstrong TechZone ceiling grid systems.
- ML-TZ is a supply diffuser with modulinear pattern controllers. The unique design of the pattern controller assembly allows changes in the direction and volume of the air flow from the diffuser face.
- MLR-TZ is a matching return diffuser.
- Standard diffuser lengths are 24", 30", 36", 48", 60", and 72".
- Diffusers are available in three border types: LT (Lay-in Tee), DF (Drop Face), and NT (Narrow Tee).
- Material is extruded aluminum with steel pattern controllers.
