

AG-15-HD

- Neck mounted
- Uses steel s-clips for easy mounting and removal
- Designed to fit drum louver (DL) models only

AG-15-HD

air balancing

See website for Specifications

MODEL:

AG-15-HD / Steel / Heavy Duty Neck-Mounted

FINISH:

Standard Finish - #04 Mill

OVERVIEW

Opposed Blade

Effective air balancing begins with the balancing provisions that are designed into the HVAC system. Titus balancing devices are easy to select and specify. They are designed for quick access and adjustment and are engineered for the least possible noise, turbulence and air resistance. Titus makes available published flow factors for all Titus diffusers. This allows precision balancing to be performed in the field with accuracy based on prior test results.
