

OMNI-RS

STEEL SQUARE PLAQUE / ROUND PANEL
DIFFUSER USED IN ARCHITECTURAL CEILINGS

The OMNI-RS diffuser is designed for an architectural look and engineered performance. The unique round plaque face/square panel combination delivers a 360° tight horizontal air pattern without excessive noise or pressure drop. It provides excellent performance in variable air volume systems.

FEATURES & BENEFITS

- Excellent performance in variable air volume systems
- Clean, unobtrusive lines harmonize with ceiling systems without sacrificing performance
- Delivers a uniform 360 degree air discharge pattern
- The round plaque face can be removed from the backpan for easy installation of the diffuser or for access to the optional damper
