

OMNI-AA

ALUMINUM PLAQUE FACE DIFFUSER FOR
USE IN ARCHITECTURAL CEILINGS

The Titus OMNI is an all-aluminum plaque face diffuser that satisfies architectural and engineering criteria. Its strong, clean, unobtrusive lines harmonize with the ceiling system without sacrificing performance. The curvature of the OMNI-AA backpan works with the formed edges of the face panel to deliver a uniform 360 degree horizontal air pattern, without excessive noise or pressure drop. It is an excellent selection for variable air volume systems.

FEATURES & BENEFITS

- MRI compatible
- Excellent choice for variable air volume systems
- Supply diffuser for architectural ceilings
- Available in woodgrain finishes
- 360 degree air pattern
- Face panel is held in place by 4-hook brackets that positively engage into slots in the backpan
