General Description

- TDV-NT is designed to integrate into 24 x 24" Narrow Tee regressed ceiling systems.
- TITUS Model TDV-NT is a high capacity ceiling diffuser. Because it maintains an unbroken horizontal flow pattern from maximum cfm down to minimum, it is an excellent choice for variable air volume applications.
- Core is removable from the face of the diffuser.
- Model TDV-NT is extremely flexible, with cores available for 1, 2, 3 or 4-way horizontal flow patterns.
- Material is heavy gauge steel.
- The TITUS TDV-NT has a louvered face with integrated induction vanes for exceptional air mixing.
- Slot operator on optional, neck-mounted Model AG-95 damper allows easy volume adjustment by removing the diffuser core. (Rectangular necks only).

Note: This submittal is meant to demonstrate general dimensions of this product. The drawings on this submittal are not meant to detail every aspect of the product with exactness. Drawings are not to scale. TITUS reserves the right to make changes without written notice.
