General Description

- PAS-NT is designed to integrate into 24" x 24" Narrow Tee regressed ceiling systems.
- Model PAS-NT perforated ceiling diffusers are designed to provide a uniform circular pattern.
- Excellent performance in variable air volume systems.
- A tight, uniform horizontal blanket of air protects the ceiling against smudging.
- Discharge pattern can be adjusted vertically as well as 1, 2, 3 or 4 way horizontally. Can be adjusted before or after installation.
- Discharge pattern is easily adjusted by dropping the perforated face and rotating pattern controllers.
- Dropping the perforated face also gives access for adjusting the optional dampers.
- Perforated face has $\frac{3}{16}$ " diameter holes on $\frac{1}{4}$ " staggered centers.
- Inlet collar is approximately $1\frac{1}{2}$ " deep to allow easy duct connection.
- Material is heavy gauge steel.

Note: This submittal is meant to demonstrate general dimensions of this product. The drawing on this submittal are not meant to detail every aspect of the product with exactness. Drawings are not to scale. TITUS reserves the right to make changes without written notice.
