

Air Balancing Devices

Double Blade Equalizing Grids • Duct Mounted

For Square and Rectangular Necks

Models: **AG-125-S** • Short Blades
AG-125-L • Long Blades

Available Sizes:

6" x 4" to 48" x 48"

Standard Finish: #26 White

General Description

- The TITUS AG-125-S and AG-125-L are duct mounted double blade equalizing grids used for the TDC diffuser only.
- The AG-125 can be adjusted to provide positive control of air volume and even distribution of air over entire supply outlet.
- Consists of two sets of independently adjustable blades which achieve air flow equalization entering and leaving damper.
- Axes of blades are assembled off center of frame to allow rear blades to extend further back into air stream, providing maximum control of air.
- Models AG-125-S and AG-125L are shipped loose for field installation.
- Material is steel with extruded aluminum blades.
