

Air Balancing Devices Equalizing Grid • Duct Mounted For Square and Rectangular Necks

Models: **EG-S** • Short Blades
EG-L • Long Blades

Available Sizes:

3" x 3" to 30" x 30"

Standard Finish: #26 White

General Description

- The TITUS EG-S and EG-L are duct mounted equalizing grids used in square and rectangular duct applications.
- The EG-S and EG-L balance the flow of air into the diffuser neck or duct.
- Specially designed TITUS vanes give maximum control of air flow with minimum noise and turbulence due to sizing and vane spacing.
- Vanes are individually adjustable with friction pivots to hold the desired settings and provide rattle free performance.
- Models EG-S and EG-L are shipped loose for field installation.
- Material is steel with extruded aluminum blades.
