## General Description

- DVRI is a rectangular displacement diffuser that can be positioned against a wall in a flush or surface mount orientation
- The DVRI can supply a large volume of air at low velocity to the occupied zone
- Includes integral variable air pattern controllers for easy adjustment of the air flow spread pattern
- Includes air volume measurement outlet to facilitate balancing. K-factor is market on outlet
- Material is galvanized steel and aluminum
- Standard finish is #26 white (powdercoat)
- Optional duct cover and mounting base available as accessories
