

MCD / MCD-AA

- Titus Model MCD modular core diffuser is extremely flexible; it can be adjusted for a 1-, 2-, 3-, or 4-way pattern after it has been installed
- Maintains a horizontal flow pattern from maximum to minimum cfm, making the MCD an excellent choice for variable air volume systems
- Optional AG-95 opposed blade damper is accessible for adjustment from the diffuser face by removing a core module
- MCD is shipped with the modular core set for 4-way discharge
- Material is heavy gauge steel (MCD) or aluminum with miscellaneous steel parts (MCD-AA)
- New core design results in a higher quality overall assembly, and easier changes to modular core placement
- Now available with round neck for flex duct applications

MCD / MCD-AA
